Cheetah Awareness Bookmarks

Cheetah bookmarks are a great way to raise awareness about cheetahs. We have provided a bookmark with great cheetah facts and features to use if you like for the bookmark back.

Give them as gifts to your friends and family. Keep one for yourself too. 😊

Supplies:

- Cardstock or cardboard (use a side of a cereal box)
- Ruler
- Scissors
- Markers or colored pencils

How to:

1. Measure on your cardstock or cardboard a 2" x 8" strip.
2. Carefully cut out the strip.
3. Use your markers or colored pencils to color cheetah designs, write facts or important cheetah information on the strip. Color both sides.
4. **OR** use the attached bookmark "Cheetahs" as the back of your bookmark. Print the page on cardstock and cut out the (2" x 7.5") bookmark. Color the front any way you like!
5. Your bookmark is complete.
6. Make a collection of bookmarks.

**Have fun making bookmarks!
Share bookmarks with friends and family.**

(print on back & decorate the front)

CHEETAHS

FAST FACTS

Live in Africa & Iran
Less than 7500 in world
Status: Vulnerable (ICUN)
Endangered
(US Endangered Species Act)

AMAZING FACTS

The Cheetah is the fastest
land animal on Earth.

Cheetahs can reach up to
speeds of 70 MPH.

AMAZING FEATURES

Cheetahs have long tails
that help it steer & balance
when running.

Cheetahs have 2000 to
3000 spots that help them
blend into their habitat.

Cheetahs have black lines
called "tears" that run
down the side of their
nose. They help block the
sun's glare.

Cheetahs make a chirping
sound to communicate
with each other. Sound
like a bird.

Cheetahs can see up to
three miles away.
